

Free State Fly Fishers Presents: **“Improving Your Fishing Success by Doing Some Homework”**

A Free Virtual Hands-on Session Presented by John Veil,
 Kayak Fishing Author

SATURDAY January 16, 2021
 10 AM to 12 PM

Location:
 Virtually Via a Zoom Meeting

John Veil will share how to collect and evaluate relevant information that can definitely increase the odds of finding fish and of being as comfortable as possible in your kayak or canoe. This club sponsored event, free to FSFF members, is part of a continuing series of club sponsored Saturday sessions focused on hands-on demonstrations of all aspects of fly fishing.

By doing some ‘homework’ the day or night prior to your fishing trip, you can have information which you put to work in not only finding fish but how to best catch them. You will learn about a series of websites and information resources you can use to help plan when and where you will launch and what locations or routes you will target for fishing.

During this virtual hands-on demonstration, John will cover the following:

- **How to use Google Maps or Google Earth for the areas you are fishing**
- **Using the weather forecast to your best advantage...and safety**
- **How to use wind direction websites to determine wind conditions**
- **Where to find the best information on tides**

John will work through a series of website on-line during our virtual session.
