Location:

Free State Fly Fishers' Clubhouse
Davidsonville Family Recreation Center

Joe Bruce will share with club members a host of fly tying techniques based on decades of experience in tying flies commercially. This club sponsored event, free to FSFF members and all visitors, is part of a continuing series of club sponsored Saturday sessions focused on hands-on demonstrations of all aspects of fly fishing.

There are many, many fly tyers not only within our club, but across the mid-Atlantic and beyond who have learned many new fly tying techniques from Joe, both in person and via his dozens of published books. Here's your incredible opportunity to learn what Joe have learned from his decades (and decades) of tying flies first for his fly shop and then for his website.

Joe often refers to fly tying as strictly finger manipulation. So come to the clubhouse and learn from one of our club's fly tying expert and learn how to better:

- Better select, cut and handle the materials which you are tying onto you fly
 - More effectively tie bucktail, krystal flash, fibers, feathers and more onto your fly
 - Finishing off your fly so it remains intact even as you fish it and catch fish with it
-and a lot more!
