10 AM to 12 PM

Capt. Winters will offer tips on how to securely pack your gear for distant fly fishing trips so that it arrives unharmed and ready to use. This club sponsored event is part of a continuing series of Saturday sessions focused on hands-on demonstrations of all aspects of fly fishing.

Many of us have experienced the angst of a rod broken during travel, a missing box of flies when you have finally arrived at your destination. However, using the correct luggage and a systematic way of packing it can alleviate the above problems. During this hands-presentation and demonstration, Duber will cover the following:

- The different kinds of luggage he uses depending on the destination and mode of transportation.
- How to pack fly rods for safe travel.
- A few stories to illustrate why care in proper packing for a fly fishing trip is so important.
