A daunting task. You need to tie multiple flies of the same pattern for an upcoming trip. Joe will share his tips to simplify your mission. He will emphasize:

- That material preparation is key in batch fly tying
- The importance of an uncluttered tying desk
- The efficiency of batch tying flies sequentially step-by-step

Also, Joe will show that batch fly tying varies by fly pattern. He will address these popular flies: Krebs Popper, Clouser Minnow, Golden Retriever and Black Ant. In so doing he will show attendees how to use Sally Hansen #800 Clear, UV Resin, and how to paint a Surface Seducer Popper.
