

**Scale Down Your Gear**  
**If you have to weigh it you are in trouble**

All I need  
to do is  
Add Rods

# Scaling Down Does Many Things

- Lightens tackle load
- Eliminates spending time worrying about changing flies or lures
- More room
- Makes you think about what is REALLY needed for the day.
- Less fumbling around in bags & crates

# Stop Taking the “Possible Bags”

- Possible bags are the bags you have been taking out to the vehicle and loading in the boat trip after trip and not use for the **JUST IN CASE YOU MIGHT NEED IT.**

# Try to eliminate the crates, use rod holders

- The crates are hard to find anything in them because they are behind you and your rods are vertical which can be broken when casting and don't allow you to get tight to shore where the fish are.

If you  
tend to do  
this

DO NOT  
DO THIS
