Tom with a Susquehanna Shad

Tom Parham will present seminar on shad fishing just in time for the spring migration of these remarkable fish in our local rivers. Shad have been aptly dubbed the "The Nation's Founding Fish" due to their importance as a food source for indigenous populations and the European settlers of our country. Tom will show members the gear and flies he uses to catch two species of shad – American and Hickory. And he will discuss the best techniques and locations to catch these remarkable fish. You won't want to miss this timely and informative Hands On session.
